April 2.

Dear Harold,

Here is the start of the King series. I hope it improves. I haven't seen the other parts. There are four more I am told.

Also copies of reviews from Sun-Times and Chicago Today on Frank book. From their praise-ish reviews it looks like crap already and I haven't seen a copy.

I also included a strange little piece I did on Henry(The Kaiser) Kissinger. I picked it up from a local rightwinger. I think it might be true. I believe they wanted us to leak the thing. When the House gets back I have been promised a request for an investigation of K. , probably by far-right Republicans and liberal Demos.

The FBI tells me that they did not release the ITT memo report. It was released by judiciary committee, I got runaround from them, but will try again Monday.

I believe last part of our Gruenberg series will be a review of the Frank book.
